EDUCATION

Western University — **London, Ontario**

Bachelor of Science Honors Specialization in Computer Science — *Expected 2028*

– Relevant Coursework: Foundations of CS, CS Fundamentals I, Introduction to Business

EXPERIENCE

Loblaw Companies Limited — **Mississauga, Ontario**

Associate Merchant Intern — *May 2025 – Aug 2025*

– Served as the point of contact between vendors and stores, coordinating the transition from single-item to case-pack ordering, which reduced shrink risk by 15%.
– Partnered with cross-functional teams across merchandising, supply chain, and store operations to align initiatives and ensure smooth execution of merchandising strategies.
– Streamlined sales reporting processes by automating data consolidation, reducing turnaround time and enabling faster decision-making for category managers.

Richmond Capital Partners — **London, Ontario**

Developer — *September 2024 – April 2025*

– Collaborated with a team of developers to design a real-time trading dashboard.
– Implemented macro-economic calendar using React and investing.com widgets.
– Designed and integrated lazy loading and fallback components to ensure seamless data visualization on stock info cards.

Western Investment Club — **London, Ontario**

Researcher — *October 2024 – April 2025*

– Participated in weekly workshops and presentations, enhancing knowledge of financial markets, portfolio management, and investment analysis.
– Conducted sector-specific research within the Technology, Media, and Telecommunications (TMT) industries to identify emerging market trends.

PROJECTS

Chat Application | React, JavaScript, CSS, Firebase — Live Demo

– Developed a full-stack web application using Firebase for backend with React JS as the frontend.
– Integrated Google sign-in using OAuth 2.0.
– Implemented Firestore database for efficient message storage and retrieval.

Personal Portfolio Website | React, JavaScript, TailwindCSS — www.rayhanmohamed.com

– Designed and developed a responsive personal portfolio website to showcase projects and experience.
– Implemented modern UI components and responsive layouts using TailwindCSS.
– Deployed the site to a custom domain with continuous integration for updates.
